

Many a man would better go without lunch at all than eat the hurried lunch which forms the noon-day meal of many a business man. Hasty eating, foods hard to digest, and no time allowed for digestion are the cause of many a case of stomach "trouble."

Disease of the stomach eriously threatens the health of the whole body and should be promptly cured. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach

tion. It enables the perfect assimilation of food and the proper nutrition of the body on which physical strength depends. "Nine or ten years ago my health became very poor, and in 1892 was so far gone that good doctors pronounced my case the worst they had ever treated," writes Mr. Harvey Phipps, of Florence, Ala. "I had acute stomach trouble, liver complaint, catarrh and was nervous to such an extent I could not sleep. I finally got three bottles of Dr. Pierce's Golden Medical Discovery and some 'Pellets.' Took them according to directions on the bottles, and in a few days noticed a decided improvement. I commenced to get more rest at night and could eat with pleasure. There formerly food was like white to pleasure, where formerly food was like chips to me. When I had used three bottles of the Discovery' I was a new man; could eat mince pie for supper, go to bed at seven P. M. and sleep until seven A. M. I am now working at my trade (carpentry), every day in all kinds of weather, and think if I had not taken your medicines I would now be under the sod."

S. Doan Outlining His Views-Madden's Acceptance.

George Hitz, commission merchant, nominated for mayor by the recent convention of the Prohibition party, in a formal let- the property of the rich. ter accepting the nomination, declares that he is an independent candidate. He outlines his views as follows:

Wilson S. Doan, Chairman, City: "Dear Sir-Having been tendered the nomination for the important office of mayor of the city of Indianapolis by the convention over which you had the honor to preside on May 18, it seems to me due the large number of the best citizens of our city who were represented at that convention, that I give at this time a more formal aceptance of the high honor conferred on me than I was able to do verbally on the occasion of the convention. crossings should be secured without delay, but the proper methods should be determined after careful investigation, without prejudice or fear or favor.

"8. We must recognize the fact that our city is facing a serious fuel problem. The gradual failure of the supply of natural gas makes the careful consideration of this question imperative. The furnishing of gas consumers in bulk, as formerly, seems be now impracticable, if not impossible. But this should not mean such leniency to corporations offering to furnish fuel gas as to make the consumer the victim of unjust charges under the trying emergency. I am in favor of a carefully protected ordinance that will secure to the consumer no charge greater than the actual cost of furnishing the gas, with a margin sufficient to give the supplying company a reasonable profit on the actual investment. With this question taken up at once and carefully considered without prejudice, and with only the interest of the consumer and strict justice to the supplyer in question, it should not be difficult to reach a satisfactory agreement. and furnish gas fuel to the consumer at a reasonable rate and before he has made expensive changes in his plans for heating and cooking. "I am opposed to allowing the gas com-

panies to tear up the streets to remove their present system of pipes, and I am also opposed to allowing them or any other company to furnish artificial gas through these pipes without first securing a fran-chise for that purpose which shall fully safeguard the interests of our citizens. 'Since I am the only independent candidate for mayor whose election is possible fully solicit the vote of all of my fellowcitizens who wish a clean city, physically and morally, and who desire an economical business administration in the interest of all the people, without any regard whatever for the interests of any political party or organization, and without the least attempt to build a political or 'personal' machine to control future elections. Very truly yours, GEORGE HITZ."
